VISIONPRINT®

Go to the professionalism

Because of its large experience in medical imaging, Binarios has put all its expertise in designing and implementing its DICOM printing system on paper.

VisionPRINT® is a DICOM interface adapted to Xerox printers. It's an efficient tool to print DICOM images on A3 and A4 papers or booklet with an attached report.

The print server allows imaging centers to reduce their environmental impact and operational expenses. VisionPRINT® also optimizes the workflow within the imaging department.Experts in medical IT
